THIS AGREEMENT is made and entered into as `today` by and between `Pure Systems Group`, and `"3rd party"`, (collectively, "the Parties").

The Parties hereby agree as follows:

1. For purposes of this Agreement, "Confidential Information" shall mean any and all non-public information, including, without limitation, technical, developmental, marketing, sales, operating, performance, cost, know-how, business plans, business methods, and process information, disclosed to the Recipient. For convenience, the Disclosing Party may, but is not required to, mark written Confidential Information with the legend "Confidential" or an equivalent designation

2. All Confidential Information disclosed to the Recipient will be used solely for the Business Purpose and for no other purpose whatsoever. The Recipient agrees to keep the Disclosing Party's Confidential Information confidential and to protect the confidentiality of such Confidential Information with the same degree of care with which it protects the confidentiality of its own confidential information, but in no event with less than a reasonable degree of care. Recipient may disclose Confidential Information only to its employees, agents, consultants and contractors on a need-to-know basis, and only if such employees, agents, consultants and contractors have executed appropriate written agreements with Recipient sufficient to enable Recipient to enforce all the provisions of this Agreement. Recipient shall not make any copies of Disclosing Party's Confidential Information except as needed for the Business Purpose. At the request of Disclosing Party, Recipient shall return to Disclosing Party all Confidential Information of Disclosing Party (including any copies thereof) or certify the destruction thereof.

3. All right title and interest in and to the Confidential Information shall remain with Disclosing Party or its licensors. Nothing in this Agreement is intended to grant any rights to Recipient under any patents, copyrights, trademarks, or trade secrets of Disclosing Party. ALL CONFIDENTIAL INFORMATION IS PROVIDED "AS IS". THE DISCLOSING PARTY MAKES NO WARRANTIES, EXPRESS, IMPLIED OR OTHERWISE, REGARDING NON-INFRINGEMENT OF THIRD PARTY RIGHTS OR ITS ACCURACY, COMPLETENESS OR PERFORMANCE.

4. The obligations and limitations set forth herein regarding Confidential Information shall not apply to information which is: (a) at any time in the public domain, other than by a breach on the part of the Recipient; or (b) at any time rightfully received from a third party which had the right to and transmits it to the Recipient without any obligation of confidentiality.

5. In the event that the Recipient shall breach this Agreement, or in the event that a breach appears to be imminent, the Disclosing Party shall be entitled to all legal and equitable remedies afforded it by law, and in addition may recover all reasonable costs and attorneys' fees incurred in seeking such remedies. If the Confidential Information is sought by any third party, including by way of subpoena or other court process, the Recipient shall inform the Disclosing Party of the request in sufficient time to permit the Disclosing Party to object to and, if necessary, seek court intervention to prevent the disclosure.

6. The validity, construction and enforceability of this Agreement shall be governed in all respects by the law of the `State`. This Agreement may not be amended except in writing signed by a duly authorized representative of the respective Parties. This Agreement shall control in the event of a conflict with any other agreement between the Parties with respect to the subject matter hereof.

IN WITNESS WHEREOF, the Parties have executed this Agreement as of the date first above written.

Pure-Suite 19® formerly known as Pure Member®

Pure Systems Group Unified Communications Platform that combines Video, Voice, Web conferencing, instant messaging, Data hosting, file sharing, word processing, slide show presentation and spreadsheet processor.

Languages to be used: C#, SQL and Crystal report.

Business Management Tool

"Run your All Business All in One Place"

*Plug and Play, no installation required.

*This app should run directly from a USB drive e.g flash drive or external hard drive

Core features:

- Support multiple users (Login functions)
- Send emails
- Have a virtual drive to save files for remote working. *
- Calendar Functionalities (Scheduling system).
- Phone address book capability
- Video and Voice calling capability
- Instant messaging
- Built in Web browser
- Word, Power point and Excel processor
- E-commerce capabilities
- Generate invoices
- Stock Trading Platform
- Project Management and Tracking Tool

What users will also be able to do on (Pure-Suite 19®):

- Manage appointments - Track individual and group appointments, assign multiple employees and resources and easily see the state of every appointment.
- Record sales and track stock
- Track and control employees
- Strong Client relationship system
- Send email and sms campaigns
- Performance matrix overview
- Pure-Suite 19® will also run directly from USB drives thus it will require no installation. —self-contained executable that can run from a flash drive and run without installation. The idea of this is to eventually sell Pure-Suite 19® as a physical product (the USB drive), where the drive space would essentially be the commodity apart from different packages with different features.

  ➢ Here's what i came across:
  https://www.howtogeek.com/326049/how-to-auto-run-windows-programs-when-you-plug-in-a-usb-drive/

  Pure-Suite 19® will also run on local
  networks over wifi for businesses.

Synopsis

Pure-Suite 19® will offer growing businesses a solution that brings together contacts, account history, notes, and activities into a single, centralized location. Instead of relying on multiple systems, spreadsheets, or documents, users can take notes, manage prospect and customer information, send email campaigns, and track interactions from the same interface.
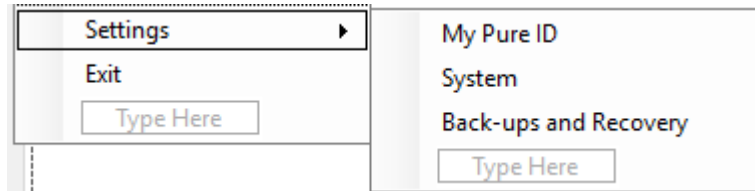

When it comes to account information, Pure-Suite 19® will allow users to manage contact details, lead data, and pending opportunities. Built-in features help track lead sources, competitors, status changes, and more. Pure-Suite 19® will also provide a shared team calendar, so users can manage multiple schedules and track sales activities.

Pure-Suite 19® is designed to integrate with the tools sales teams use every day, like Office, Outlook, and Dropbox.

User stories

- Support multiple users (Login functions)

I as the administrator would like to have a "Users and Role" function to control user privilege so that I can better manage each user's activities.

- Send emails

I as the user would like to be able to send emails directly from the application using email clients.

- Have a virtual drive to save files for remote working. *

I as the user would like to have my work stored and saved within the application as this will be a plug and play application and also simultaneously in a remote server(cloud).

- Calendar Functionalities (Scheduling system).

I as the user would like to schedule meetings with my customers/clients and team.

- Phone address book capability

I as the user would like to store contact details including address of my customers/clients and team.

- Video and Voice calling capability

I as the user would like to make internet calls voice/video (VoIP) with other Pure-Suite 19® users through virtual private networks.

- Instant messaging

I as the user would like to like send instant messages to my team members and other Pure-Suite 19® users.

- Built in Web browser

I as the user would like to browse company websites without having to leave the application.

- Word, Power point and Excel processor

I as the user would like to create text, presentations and sheet files within the application without having to leave the application.

- E-commerce capabilities

I as the user would like to be able to pay my vendors and service providers through the application.

- Generate invoices

I as the user would like to create invoices for my customers/clients.

- Stock Trading Platform

I as the user want to be able to facilitate day trading of stocks or other financial instruments.

- Project Management and Tracking Tool

I as the user want to track progress of projects, time estimations and cost analysis.

Conclusion

The proposed upgrade is supposed to make the new version more social able, creators will be able to market themselves with absolute freedom.

1. Does the product really work? Yes
2. And can it work in a complex environment? Yes
3. Does the product have the ability to adapt with time to meet new needs? Yes
4. Is the product scalable? Yes
5. And to what potential? Above and beyond
